Association Executive Report Submitted To:

Date:

Items Discussed: 100th Anniversary of Code of Ethics. How revolutionary it really was. Even when cars were invented it made it more possible for etc. People to move away from the downtowns & out to what because the suburbs and bedroom communities. There was so much cheating going on when men were "curbstoners", set up business on the curb and sold forged deeds, over and over. Double dealing, NAR was formed. Organization met once a year and wrote letter to each other.

Thoughts (Relevancy to CAOR):

Article 1 is the one brought up the most.

Arbitration activity . Mediation is really working. Associations are encouraged to publish periodic Code of Ethics Activity reports. No names are on it, but it will show that it is working and what they should be more aware of.
